

Homework Assignments Math 103 *Tentative*

Directions:

On the **top** sheet write: *Number of problems done* followed by the number of problems done in the entire book-work homework assignment (the total possible is given in the chart below beneath the due date/test date.) Some papers will be spot-checked and if the number of problems actually done does not match the number on the top sheet, the entire assignment will get zero points. **Also**, if the number of problems done is not written, points will be deducted.

The Homework assignment will be graded for problems COMPLETED for a possible minimum of ten points. On **top** of the homework should be included write-ups on all other assignments (if assigned). These will be worth at most eight points (total points: eighteen).

Due (Test) Date (total)	Section	Homework Assignment
2/8 (96)	1.2	1-25 odds.
	1.3	1-31 odds.
	1.4	1-27 odds.

Facilitated Learning Session Opportunity

A Facilitated Learning Session (a scheduled group study time with a tutor) will be established for this course by the Tutoring Center. You may earn one extra credit point for every session you attend.*

Self-Initiated Group Study

A group tutoring session consisting of **two to five** students from this class may be formed. The appointment is made with a tutor through the Tutoring Center. When you arrive at the appointment, let the Center know that you wish to get credit for the session, and they will fill out the proper paperwork. You may earn one extra credit point for every hour session you attend.* You may take advantage of this opportunity up through the day of the last unit test (5/10).

***Note on Extra Credit: you may only earn a MAXIMUM of ten extra credit points from the two extra credit opportunities mentioned above.**
