

**ASTR 101/120/201**  
**Student Questionnaire**

Please make sure I can read your handwriting, and be sure to distinguish between confusing characters in email addresses, i.e. underscores "\_" vs. hyphens "-", letter "l" vs. number "1", etc.

Name you prefer to be called:

---

Email Address:

---

Major(s) or Subject(s) of Interest:

---

Approximate Number of College Credit Hours Accumulated:

---

Have you ever taken an astronomy course before (any type, anywhere)?

If so, please list course title(s)/subject(s), institution(s), and approximate date(s).

What is the most advanced math course you have taken? When did you take it?

Please give course title/subject, institution, and approximate date.

Have you taken any other college-level science courses?

If so, please list the course title(s)/subject(s).

Why are you taking this course? Mark all that apply.

- For the general education physical science requirement.
- For my major/minor.
- As an elective.
- Parent/sibling/spouse/clergy/pet/aliens said I should. (Please indicate which.)
- I would like to be an amateur astronomer.
- I'm already an amateur astronomer but I want more.
- I'm interested in the practical side of astronomy.
- Because astronomy is just plain *cool!* (Duh!)
- Other (please explain)

What can I, as your instructor, do to make the class more interesting/worthwhile for you?

Is there anything else you'd like for me to know?
