

## Scavenger Hunt

---

### Syllabus Version

Use the course syllabus to answer the following.

1. T / F : Your overall course grade will be curved.
2. T / F : Not having a colored ABCD card in class could cost you participation points.
3. T / F : The “Reading Questions” component of your grade is worth more than one letter grade.
4. T / F : You are allowed a cheat sheet on the tests.
5. T / F : It’s okay to have a used copy of the Lecture Tutorial workbook.
6. T / F : You should be working together often, and on almost everything.
7. T / F : The “Participation” component of your grade is worth more than one letter grade.
8. T / F : Your grade on a set of Reading Questions is the average of the two tries.
9. T / F : You cannot remain in the class without completing the syllabus quiz on time.
10. T / F : The “Homework” component of your grade is worth as much as “Participation” and “Reading Questions” combined.
11. What percentage of your grade is not tests?
12. How long do you have to turn in missed assignments?
13. When can you drop into an online help session unannounced? An in person help session?
14. If you miss a test can you make it up? What safeguard(s) is(are) in place for this situation?
15. Are the test dates already known? Where can you find them?
16. Complete the sentence. “I do not *give* grades...”
17. To be successful, what is the average number of hours *per week* you should expect to spend on this course outside of class time?
18. What benefit(s) arise from participating in multiple help sessions?
19. Your first source for information about the course should always be \_\_\_\_\_.
20. What is the last day you can turn in the observing assignments?
21. What sentence lets you know you will sometimes have to deal with numerical data, formulae, and/or graphical representations in this course?
22. Complete the sentence. “It is not what I do that matters...” Why is this statement true?
